RELEVANT BUILDING CODE CLAUSES

- B2 Durability: Performance clauses B2.3.1(a) (ii) and (iii) and B2.3.2
- C3 Fire affecting areas beyond the fire source clause C3.4(b)
- D1 Slip
- F2 Hazardous Building Materials: Performance clause F2.3.1
- G6 Airborne & Impact Sound clauses /AS1

STATEMENT ON HOW THE BUILDING PRODUCT IS EXPECTED TO CONTRIBUTE TO COMPLIANCE

- **B2.3.1(c) (i) and (ii) and B2.3.2:** Carpet Court Commercial carpet ranges are designed and manufactured to be durable, meeting this clause when the flooring is installed to AS/NZS2455.2-2007 standard, furthermore maintained to the standard required in the care and maintenance guide. Refer to the care guide for further information. Care guides and warranties available online at www.carpetcourt.nz/warranties.
- **C3.4(b):** Carpet Court Commercial carpet ranges meet or exceed the performance criteria required by clause C3.4(b) passing the required Critical Radiant Flux testing.
- **D1.2.1.2(b) and 2.1.5:** Carpet Court Commercial carpet ranges are deemed acceptable wet slip as per table 2, 2.1.2(b).
- **F2.3.1:** Carpet Court Commercial carpet are manufactured in facilities that meet Green Label Plus standards, and have a range of total VOC's less than 0.5mg/m3.
- **G6:3.1 and G63.2** Carpet Court Commercial carpet tiles pass ISO 140-8 standard with - ΔLw 23dB

LIMITATIONS ON THE USE OF THE BUILDING PRODUCT

- Must be installed by a professional installer to ASNZS2455.2-2007 standard.
- Carpets, like all textiles, may fade or change colour particularly in areas exposed consistently to New Zealand's harsh UV conditions and sunlight, or may appear to have faded due to pile flattening through use. Shade sails, louvre systems, blinds, sheers and curtains offer protection and are recommended to protect your purchase, especially in North and West facing areas of your home.
- Colour change can also occur as the result of ozone, emissions from heating fuels and air conditioners, pesticides, cleaning agents, benzol peroxide and other household items.
- The texture of any carpet will change to some degree in heavy traffic areas. Such conditions constitute normal wear.
- Carpet requires proper installation; this is as important as the original quality and durability of the carpet. An improperly installed carpet will not look good nor wear well and may cause delamination, buckling, wrinkling and loss of tufts in the seam areas.
- There is no carpet which is completely stain proof. Our stain guard- stain resistance treatment will increase your ability to clean up stains, not prevent stains.
- Pet urine can erode and destroy carpet backing, resulting in carpet delamination.
- This carpet can be damaged by acids or oil based or wax-based stains and substances, including but not limited to tar, shoe polish, paints, lipstick or mascara.
- If stains are saturated this may result in wicking, these stains will release with additional recleaning for the life of the carpet from the original date of installation. Wicking is defined as a reappearance of previously cleaned stains due to liquid remaining in carpet backing or underlay.
- Carpet in heavy traffic areas will exhibit the most change.
- You can expect minor and normal differences between the colour and texture of a retail store sample and the true colour and texture of the actual carpet.
- Intended purpose of this product is flooring.
- Care guides and warranty is available online at www.carpetcourt.nz/warranties.

DESIGN REQUIREMENTS THAT WOULD SUPPORT THE APPROPRIATE USE OF THE BUILDING PRODUCT

- Carpet Court Commercial carpet tiles must be installed using the direct stick method.
- Sheers and curtains offer protection and are recommended to protect your purchase, especially in North and West facing areas of your home.
- Floor must be flat, solid and level.
- Carpet Court Commercial carpet tiles are made to perform in heavy duty environments.
- Carpet Court Commercial carpet tiles are made for indoor use only.

INSTALLATION REQUIREMENTS

- Must be installed by a professional installer to ASNZS2455.2-2007 standard.
- Carpet Court Commercial carpet tiles must be installed using the appropriate glue for the environment they will be used in. Please refer to a reputable adhesive supplier if required
- For installation standards please refer to <https://www.standards.govt.nz/shop/asnzs-2455-22007/>

MAINTENANCE REQUIREMENTS

- It is recommended to include a minimum of one professional cleaning every 18 months.
- Care guides and warranties available online at www.carpetcourt.nz/warranties.
